

The EMNS Laboratory has the pleasure to invite you to discover the work of our new permanent colleague Hennie Valkenier-van Dijk in the framework of the mini symposium

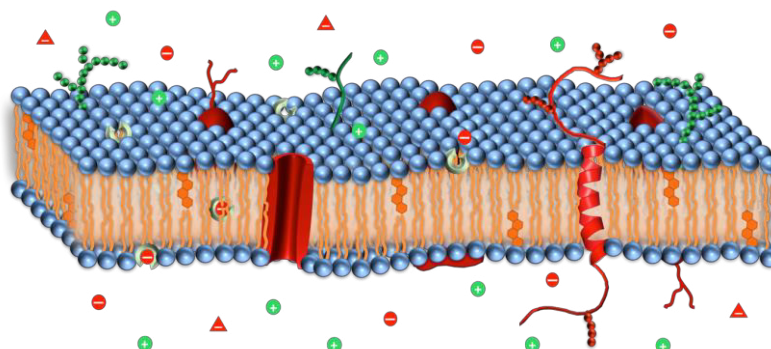

ULB

BEYOND THE MEMBRANE

Thursday November 8th, 2018
Solbosch, UD4.116 (Room Michel Kaisin)

12h00 Welcome and lunch

12h30 ***Chemistry to Cross Borders: The Development of Synthetic Receptors for Transmembrane Transport of Ions***, by Hennie VALKENIER – VAN DIJK (ULB)

13h30 Coffee/Tea break

14h00 ***Drug Delivery via Cell Membrane Fusion using Lipopeptide Modified Liposomes***, by Alexander KROS (Leiden University)

15h00 ***Discovery and Supramolecular Chemistry of Biotin[6]juril: from anion receptors to transporters***, by Michael PITTELKOW (University of Copenhagen)

16h00 Free discussion

A sandwich lunch will be provided at 12h00. May we please ask you to register [here](#) before November 1st?
